

QOMARUS ZAMANI

WEB DEVELOPER

ABOUT ME

Hello, I'm Qomarus Zamani, an innovative 23-year-old Web Developer with a Bachelor's Degree in Informatics Engineering from Universitas Merdeka Pasuruan. I have over 2 years of experience as a freelancer, particularly in developing web-based applications and APIs. I typically use frameworks like Laravel, Codeigniter, and ExpressJS as my primary development tools, and I am open to learning and exploring other development tools. I bring a strong curiosity about the IT world and am very enthusiastic about applying my extensive knowledge as a Web Developer to create innovative web-based products. Let's collaborate and bring ideas to life!
